Subject: RE: Tyonek cultural resources and attached letter

Hi Jamie,

Last week I received that attached letter from the Corp. expressing concern regarding my correspondence with SHPO, the National Historic Council, and the National Park Service regarding Tyonek's cultural resources and the fact that 106 compliance issues were not being met.

As the former Project manager with greater understanding of the 106 process, I would be most interested in your take on the letter. I will treat your input as completely confidential but would appreciate any insight you can offer before I craft a carefully worded response.

Thanks much,

Heather
